What A Princess Wants

I have been collecting stamps and covers of things that a “Princess Would Want” for over two years. I have read many princess books and I think I know what many princesses want. I have been buying from EBay and Stamps.org and have gone to 5 stamp shows over the last two years looking for items. This exhibit has changed many times because I am learning more about princesses as I create this exhibit which is my first exhibit. I have been learning a lot about stamps, FDCs, Maximum cards, postal cards, errors, booklets, souvenir sheets, coils, and many other philatelic items. My father and I look through Scott catalogues and use Wikipedia for finding information on the stamps.
